

On a rajouté un fichier readme et on le passe en ajouter

Avant de commit je rajoute un titre et les commentaires de mon commit.

Ensuite si on va sur l'onglet history on peut voir tous les événements qui se sont passés sur le repository et si on clique ici on voit les changements.

The screenshot displays the Git GUI interface. On the left, the 'Workspace' sidebar includes sections for 'Working Copy', 'History' (selected), 'Stashes', 'Pull Requests', 'Settings', 'Branches' (showing 'master' with a 'HEAD' label), 'Tags', 'Remotes' (showing 'cours-git'), 'Submodules', and 'Remote Activity'. The main panel is titled 'All Branches, Remotes, Tags' and shows a commit history for 'JUILLET 2018'. A commit by 'Mathieu Kahlaoui' (d588d511) is highlighted, with the message 'Ajout du README'. The right panel shows the details for commit 'd588d511', including the author 'Mathieu Kahlaoui', the date '1 juillet 2018 à 23:09:08 UTC+2', and the commit message 'Ajout du README'. Below the message, it states 'Ce fichier permet de faire le test.' and 'Showing 1 changed file with 1 addition and 0 deletions'. The file 'README.md' is listed as 'added'. The diff view shows a new file with mode 100644 (Regular), 1 chunk, 1 insertion, and 0 deletions. The diff content is: @@ -0,0 +1 @@  
0 +1 This is my text.  
No newline at end of file

Info: Là on est encore en local ce n'est pas sur le dépôt distant c'est dire internet
