The screenshot shows the Chrome DevTools Console with several error messages. A red circle highlights a tooltip that appears over the console, listing 'Redux', 'UI5', and 'React' as options. The console messages include:

- Warning: ./src/components/Form.js: Line 25: No duplicate props allowed react/jsx-no-duplicate-props
- Warning: ./src/index.js: Line 7: 'WSAENOMORE' is defined but never used no-unused-vars
- Warning: ./src/index.js: Line 15: Unreachable code no-unreachable
- Warning: ./src/index.js: Line 21: 'store' is assigned a value but never used no-unused-vars

The tooltip lists the following options:

- Redux
- UI5
- React

Il faut penser à ajouter ce paramètre supplémentaire à la fonction combineReducers().

```
JS index.js • JS App.js

2 import ReactDOM from 'react-dom';
3 import './index.css';
4 import App from './components/App';
5 import registerServiceWorker from './registerServiceWorker';
6 import { createStore, combineReducers } from 'redux';
7 import { WSAENOMORE } from 'constants';
8
9 const articlesReducer = (state = [], action) =>{
10   switch(action.type){
11     case 'ADD_ARTICLE':
12       console.log('ADD-ARTICLE');
13       console.log('action', action);
14       action.payload.id = Date.now();
15       return [...state, action.payload];
16     default:
17       return state;
18   }
19 }
20
21 const store = createStore(combineReducers({articles: articlesReducer }));
22 window.__REDUX_DEVTOOLS_EXTENSION__ && window.__REDUX_DEVTOOLS_EXTENSION__();
23
24
25 ReactDOM.render(<App />, document.getElementById('root'));
26 registerServiceWorker();
27
```
