

Bibliothèque UUID genere un clef aleatoire

Quickstart - CommonJS (Recommended)

```
npm install uuid
```

Then generate your uuid version of choice ...

Version 1 (timestamp):

```
const uuidv1 = require('uuid/v1');  
uuidv1(); // => 'f64f2940-fae4-11e7-8c5f-ef356f279131'
```

```
JS App.js  x  JS Form.js  
1  import React, { Component } from 'react';  
2  
3  import '../App.css';  
4  import Form from './Form';  
5  import ItemList from './ItemList';  
6  
7  const uuidv1 = require('uuid/v1');  
8  class App extends Component {  
9  
10     state = { articles : [] }  
11  
12     _addArticle = (article) => {  
13         this.setState({ articles : [...this.state.articles, article] });  
14         article.id = uuidv1();  
15         console.log(this.state.articles);  
16     }  
}
```

Alternative : générer un id en millisecond depuis année 1970

```
article.id = Date.now();
```
